Research Indiana Catalog

A new online catalog connects researchers to the millions of records housed within the collections of the Indiana State Archives. The *Research Indiana Catalog* simplifies the process of searching the Archives' collections by providing listings of more than a quarter of a million holdings. The *Research Indiana Catalog* is the result of a multi-year inventory project, and will continue to be updated and refined. If you notice any errors in our data, please email us at arc@iara.in.gov.
