OTHER STUFF:

www.cgsociety.org The Computer Graphics Society, a Society of Digital Artists, has a fun site if you are interested in digital art. These forums have some of the latest techniques used in Photoshop.

https://www.youtube.com/results?search_query=htg+george I **highly** recommend these tutorials put together by HowToGurus, or as they are now called: HTG George. He has tons of YouTube tutorials on Graphic Software. This is my go-to whenever I’m stumped, or want to learn anything about Adobe Photoshop Pro and Adobe Elements.
