Finding Your Way in the Book Stacks

The Genealogy Center uses a modified Dewey Decimal numbering system to organize books on the shelves. Once you know its secret, finding books is easy. The Location Guide on the reverse side of this sheet gives the beginning part of the call number for general books on each state or province. Books on counties in each state have "01" added to the general state number, and then are arranged in alphabetical order by the name of the county. Books on specific cities, towns or villages in each state have "02" added to the general state number, and then are arranged in alphabetical order by the name of the specific place. Also check county books for information on specific towns. The following order is typical:

977.2	General books on Indiana
977.201 AL5	Books on Allen County, Indiana
977.201 D36	Books on DeKalb County, Indiana
977.202 Au1	Books on Auburn, Indiana
977.202 F77	Books on Fort Wayne, Indiana

You may simply browse the shelves for items on a geographic area of interest, but remember to check the online catalog for books given a call number you don't expect. Please ask a librarian if you need assistance.
