

SELECTED ANABAPTIST AND MENNONITE MATERIALS IN PRINT AND ONLINE IN THE GENEALOGY CENTER

John D. Beatty, CG®

The Genealogy Center of the Allen County Public Library is the largest genealogical collection in a public library in the United States. With more than 42,000 square feet of space, the Center houses millions of items in print, on microfilm, and online. The major collection focus is North America (U.S. and Canada), but we do have a large number of materials from Western Europe. It is also an affiliate of the Family History Library in Salt Lake City, which means that visitors have access to many digital items on the Familysearch website that are not viewable to the general public. The Genealogy Center does not specialize in Mennonite sources, but there are a large number of Mennonite and Anabaptist materials in the collection. It also owns more than 65,000 published family histories, many of which are of Mennonite origin.

A good place to begin research is with the online catalog, accessible through www.genealogycenter.org. You can search by surname, by place, or by subject such as “Mennonite.” There are also computers available for public use. These feature many online databases that are free to library users. Access numbers are available at the reference desk. Please remember if you need help, contact one of our staff members.
